University of Central Punjab (UCP), Lahore, Pakistan
Marks: 957 / 1100 — Grade A+

SCHOLARSHIPS & ACADEMIC ACHIEVEMENTS

- **Government Scholarship** — Matriculation: Awarded a government scholarship during secondary education.
- **Punjab College Scholarship**: Received a two-year scholarship / free education during Intermediate.
- **UCP Academic Scholarship:** Maintained a 50% scholarship throughout all 8 semesters of the BS Computer Science program.
- **Academic Performance:** Graduated with a CGPA of 3.63/4.00 in BS Computer Science.
- **Matriculation Achievement:** Secured 957/1100 (Grade A+) in Science.
- **Intermediate Achievement:** Secured 827/1100 (Grade A) in General Science.

PROFESSIONAL EXPERIENCE (2 Years)

Full Stack Developer — BerryBoost | Lahore, Pakistan April 2026 – Present

- Developing full-stack web applications using the MERN stack and TypeScript.
- Building responsive and interactive frontend interfaces using React.js.
- Designing and developing REST APIs using Node.js and Express.js.
- Collaborating with team members to develop secure and scalable web solutions.
- Writing clean, maintainable, and production-ready code.
- Using GitHub for version control and Postman for API testing.

Full Stack Developer — Thrive Grit | Lahore, Pakistan Project-Based December 2025 – March 2026

- Delivered 3 full-stack MERN applications from requirement gathering through production deployment.
- Built responsive and dynamic frontend interfaces using React.js.
- Developed scalable REST APIs using Node.js and Express.js.
- Managed MongoDB databases and collaborated with the team on testing and feature development.
- Contributed to clean code practices and timely feature releases.

MERN Stack Developer — Aspire Analytics| Lahore, Pakistan Internship September 2025 – November 2025

- Worked on full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built dynamic and responsive frontend interfaces using React.js.
- Collaborated with cross-functional teams to design, develop, test, and deploy application features.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS, Responsive Design, Framer Motion.

Backend: Node.js, Express.js, REST API Development, JWT Authentication, Google OAuth.

Databases: MongoDB, MySQL.

AI & Automation: n8n, Python Selenium, AI Workflow Design.

Programming Languages: C++, Python, C#.

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Netlify, Render.

Office & Productivity: Microsoft Word, Excel, PowerPoint.

FINAL YEAR / RESEARCH PROJECT

CareerQuest — AI-Based Career Guidance Platform | University of Central Punjab Jul 2024 – Jul 2025 [Link]

- Developed an AI-powered career guidance platform designed to provide personalized career recommendations and job matching within the IT sector.
- Utilized Artificial Intelligence (AI) and Natural Language Processing (NLP) to support skill assessment, personality assessment, career recommendations, and job matching.
- Developed a full-stack web application, contributing to both frontend and backend development.
- Worked with user profiles, job-related data, recommendation workflows, and personalized dashboards.
- Led the project team and contributed to project planning, development, integration, and implementation.
- Focused on addressing the gap between users' skills and evolving IT job-market requirements.

SELECTED PROJECTS

- **BB360 ERP** – Developed ERP modules for finance, inventory, purchase, sales, manufacturing, and HR using React, TypeScript, Node.js, Express.js, and MongoDB. [Live]
- **MediTour** – Developed a healthcare platform integrating patient, quotation, hospital, and doctor workflows using React, Node.js, Express.js, MongoDB, and TypeScript. [Live]
- **Trendora** – Developed a creator-brand marketplace with role-based dashboards, authentication, real-time communication, and payment workflows. [Live]
- **The Saffron Pantry** – Developed an e-commerce platform using React, TypeScript, Vite, and Tailwind CSS with product, cart, wishlist, and filtering features. [Live]
- **Assar Patches** – Built a responsive B2B website using Next.js, React, TypeScript, and Tailwind CSS. [Live]
- **Expense Tracker** – Built a MERN-based expense management application with authentication, group expenses, settlements, and balance management. [Live]
- **Thrive Grit** – Developed a responsive React-based business website with reusable UI components, structured service sections, SEO-focused pages, responsive layouts, and a conversion-focused user experience. [Live]

CERTIFICATIONS

- **AWS Academy Graduate** – AWS Academy Cloud Foundations — 20 hours | July 2024 [Link]
- **Intellectual Property Law Specialization** — University of Pennsylvania / Coursera | July 2025 [Link]
- **Accelerate Your Job Search with AI** — Google / Coursera | August 2025 [Link]
- **Process Data from Dirty to Clean** — Google / Coursera | August 2025 [Link]

EXTRACURRICULAR INTERESTS

- Cricket | Badminton | Football
